2. Information Disclosure and Explanation:

Vinatrans provides an explanation regarding the difference in profit after corporate income tax between 2024 and 2023 in the consolidated financial statements, where the change is 10% or more, as follows:

Unit : dong

	Profit after tax of 2024	Profit after tax of , 2023	Difference	Increase/ Decrease (%)
Consolidated financial statements	29.289.527.296	44.500.226.005	(15.210.698.709)	-34,18%

Profit after tax on the consolidated financial statements for 2024 decreased by VND 15.210.698.709, equivalent to a 34,18% decline compared to 2023. This was due to the overall impact of the global economy, the trend of reduced consumer spending, and a decline in export and import orders, which directly affected the business performance of the Parent company and several associates, leading to a decrease in profit. Additionally, the Parent Company's financial revenue declined, further contributing to the decrease in after tax profit compare to the previous year.
