Comparability of information in the separate financial statements

The information in the separate financial statements has been consistently presented by the Company and is comparable across accounting periods.

2 ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1 Accounting period and accounting monetary currency

Annual accounting period commences from 01 January and ends as at 31 December.

The Company maintains its accounting records in Vietnam Dong (VND).

2.2 Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Company applies Corporate Accounting System issued under the Circular No.200/2014/QĐ-BTC dated 22 December 2014 by the Ministry of Finance and the Circular No.53/2016/TT-BTC dated 21 March 2016 issued by Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC.

Declaration on compliance with accounting standards and accounting system

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial statements are prepared and presented in accordance with regulations of each standard and supplementary documents as well as with current Accounting Standards and Accounting System.

2.3 Basis for preparation of Separate Financial Statements

Separate Financial Statements are presented based on historical cost principle.

Separate Financial Statements of the Company are prepared based on summarization of transactions incurred and recorded into accounting books of dependent accounting entities and the head office of the Company.

The Users of this Separate Financial Statements should study the Separate Financial Statements combined with the Consolidated Financial Statements of the Company and its subsidiaries (the "Group") for the fiscal period ended as at 31 December 2025 in order to gain enough information regarding the financial position, operating results and cash flows of the Group.

2.4 Accounting estimates

The preparation of Separate Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the separate financial statements and the reported amounts of revenues and expenses during the fiscal year.

The estimates and assumptions that have a material impact in the Separate Financial Statements include:

- Provision for bad debts;
- Estimated useful life of fixed assets;
- Estimated allocation of prepaid expenses;
- Classification and provision of financial investments;
- Estimated corporate income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a material impact on the Company's separate financial statements and that are assessed by the Board of Management to be reasonable under the circumstances.

2.5 Foreign currency transactions

Foreign currency transactions during the year are translated into Vietnam Dong using the actual rate at transaction date.

Actual exchange rate when revaluing monetary items denominated in foreign currencies at the reporting date of Separate Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial banks where Company regularly conducts transaction;
- For foreign currency deposited in bank, applying bid rate of the bank where Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transactions.

All exchange differences arising from foreign currency transactions in the year and from revaluation of remaining foreign currency monetary items at the end of the year are recorded immediately to operating results of the accounting year.

2.6 Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

2.7 Financial investments

Investments held to maturity comprise term deposits (including treasury bills and promissory notes), bonds, preferred shares with mandatory redemption by the issuer at a specified future date, loans, etc. held to maturity to earn profits periodically and other held-to-maturity investments.

Investments in subsidiaries, joint ventures or associates are initially recognized at original cost. After initial recognition, the value of these investments is measured at original cost less provision for devaluation of investments.

Equity Investments in other entities comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Provision for devaluation of investments is made at the end of the year as follows:

- For trading securities investments: the basis for making provisions is the difference between the original cost of the investments recorded in the accounting books and their market value at the time of provision date, if the original cost is higher.
- Investments in subsidiaries, joint ventures or associates: provision for loss investments shall be made based on the Separate Financial Statements/Consolidated Financial Statements of subsidiaries, joint ventures or associates at the provision date.
- Long-term investments (other than trading securities) without significant influence on the investee: If the investment in listed shares or the fair value of the investment is determined reliably, provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, provision shall be made based on the Financial Statements at the provision date of the investee.
- Investments held to maturity: provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

2.8 Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. Receivables are classified as short-term and long-term in the Separate financial statements based on the remaining maturity of the receivables at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

2.9 Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory minus the estimated costs for completing the products and the estimated costs needed for their consumption.

The cost of inventory is calculated using weighted average method.

Inventory is recorded by perpetual method.

Method for valuation of work in process at the end of the period: The value of work in progress is recorded based on actual cost incurred for each unfinished contract.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

2.10 Fixed Assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

Subsequent measurement after initial recognition

If these costs augment future economic benefits obtained from the use of tangible fixed assets are extended to their initial standard conditions, these costs are capitalized as an incremental in their historical cost.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	25 - 50 years
- Machinery, equipment	03 - 08 years
- Vehicles, Transportation equipment	06 - 10 years
- Office equipment	03 - 05 years
- Accounting software	08 years
- Land use rights	No amortization

2.11 Construction in progress

Construction in progress includes fixed assets which is being purchased and constructed as at the balance sheet date and is recognised in historical cost. This includes costs of construction, installation of equipment and other direct costs.

2.12 Operating lease

Operating leases is fixed asset leasing in which a significant portion of the risks and rewards of ownership are retained by the lessor. Payments made under operating leases are charged to income statement on a straight-line basis over the period of the lease.

2.13 Prepaid expenses

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following financial years.

The calculation and allocation of long-term prepaid expenses to operating expenses in each financial year should be based on the nature of those expenses to select a reasonable allocation method and criteria.

Types of prepaid expenses include:

Tools and supplies include assets which are possessed by the Company in an ordinary course of business, with historical cost of each asset less than 30 million VND and therefore not eligible for recording as fixed asset under current legal regulations. The historical cost of tools and supplies are allocated on the straight-line basis from 01 to 03 years.

Other prepaid expenses are recorded at their historical costs and allocated on the straight-line basis over their useful lives from 01 to 03 years.

2.14 Payables

The payables shall be recorded in detail in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company. Accounts payable are classified as short-term and long-term in the separate financial statements based on the remaining maturities of the payables at the reporting date.

2.15 Accrued expenses

Accrued expenses include payables to goods or services received from the suppliers or provided for the customers during the reporting period, but the payments for such goods or services have not been made and other payables such as land rental fees, estimated logistic service costs, etc. which are recorded as operating expenses of the reporting period.

The recording of accrued expenses as operating expenses during the year shall be carried out under the matching principle between revenues and expenses during the year. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

2.16 Unearned Revenues

Unearned revenues include prepayments from customers for one or many accounting periods relating to asset leasing.

Unearned revenues are transferred to revenue from sale of goods and rendering of services with the amount corresponding to each accounting period.

2.17 Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Other capital is the operating capital formed from the operating results or from gifts, presents, financing, assets revaluation (if these items are allowed to be recorded as a decrease or increase in the owner's equity).

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profit appropriation or loss handling of the Company.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Management and announcement of cut-off date for dividend payment of Vietnam Securities Depository and Clearing Corporation.

2.18 Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured regardless of when payment is being made. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales returns. The following specific recognition conditions must also be met when recognizing revenue:

Revenue from selling goods

- The majority of risks and rewards associated with ownership of the products or goods have been transferred to the buyer;
- The Company no longer retains management rights over the goods as an owner or control over the goods;

Revenue from rendering of services

- The percentage of completion of the transaction at the Balance sheet date can be measured reliably;

Financial income

Financial incomes include income from assets yielding interest, royalties, dividends and other financial gains by the Company shall be recognised when the two conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The amount of the revenue can be measured reliably.

Dividend income shall be recognised when the Company's right to receive dividend or profit from capital contribution is established.

2.19 Cost of goods sold and service rendered

Cost of goods sold and service rendered are cost of finished goods, merchandises, materials sold and service rendered during the year, and recorded on the basis of matching with revenue and on a prudence basis. Cases of loss of materials and goods exceeded the norm, abnormal expenses, labor costs and fixed manufacturing overheads not allocated to the value of inventories upon receipt, provision for inventory devaluation, and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the year even when the products or goods have not been determined as sold.

2.20 Financial expenses

Items recorded into financial expenses comprise:

- Expenses or losses relating to financial investment activities;
- Provision for impairment of trading securities, provision for investment losses in other entities, losses from sale of foreign currency, exchange loss, etc...

The above items are recorded by the total amount arising in the year without offsetting against financial income.

2.21 Corporate income tax

Current corporate income tax expenses

Current corporate income tax expenses are determined based on taxable income during the year and current corporate income tax rate.

Current corporate income tax rate

The Company applies the corporate income tax rate of 20% for the operating activities which has taxable income for the fiscal year ended as at 31 December 2025.

2.22 Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals;
- Enterprises that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises.

In considering the relationship of related parties to serve for the preparation and presentation of Financial Statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.

2.23 Segment information

The main business activity of the Company is international freight forwarding, primarily conducted within the territory of Vietnam, therefore the Company does not prepare segment reports by business segment and geographical segment.
